

#### FORWARD LOOKING STATEMENT

This presentation contains certain forward-looking information and statements which may not be based on fact, including without limitation, statements regarding the Company's expectations in respect of its future financial position, business strategy, timing of production at Bayan Khundii, construction and commissioning timelines and expectations that address reserve potential, exploration drilling, exploitation activities, budgeted financial results, and events or developments that the Corporation expects to take place in the future. All statements, other than statements of historical facts, are forward-looking information and statements. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will" and similar expressions identify forward-looking information and statements. In addition to the forward-looking information and statements noted above, this presentation includes those that relate to: the expected results of exploration activities; the estimation of mineral resources; the ability to identify new mineral resources and convert mineral resources into mineral reserves; ability to raise additional capital and complete future financings; capital expenditures and costs, including forecasted costs; the ability of the Company to comply with environmental, safety and other regulatory requirements; future prices of precious metals; the ability of the Company to obtain all necessary approvals and permits in connection with the development of the Bayan Khundii Gold Project.

Such forward-looking information and statements are based upon a number of estimates and assumptions that, while considered reasonable by the Company as of the date of such information and statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. These estimates and assumptions relate to, among other things, the continuance of the Company and its subsidiaries as a going concern, general economic and market conditions, gold prices, the accuracy of mineral resources and mineral reserve statements, and the other estimates and assumptions contained in the Bankable Feasibility Study.

Readers are cautioned that forward-looking information and statements are not guarantees of future performance. There can be no assurance that such information and statements will prove to be accurate and actual results and future events could differ materially from those presented in such information and statements. Forward-looking information and statements is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking information and statements. Such risks include, but are not limited to, the volatility of the price of gold, uncertainty of mineral resources, exploration potential, mineral grades and mineral recovery estimates, delays in exploration and development plans, insufficient capital to complete development and exploration plans, risks inherent with mineral acquisitions, delays in obtaining government approvals or permits, financing of additional capital requirements, commercial viability of mineral deposits, cost of exploration and development programs, risks associated with competition in the mining industry, risks associated with the ability to retain key executives and personnel, the impact of COVID-19, title disputes and other claims, changes in governmental and environmental regulation that results in increased costs, cost of environmental expenditures and potential environmental liabilities, accidents and labour disputes. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information and statements. Please see the Company's Annual Information Form dated March 27, 2024 available on the Company's website at www.erdene.com or on the Company's SEDAR+ profile at www.sedarplus.ca, for details of other risks facing the Company. The Company intention or obligation to update or revise any forward-looking information and statements whether as a result of new information, future event

The Company has included certain non-IFRS financial measures in this presentation, such as Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), Initial Capital Costs, Total Cash Cost, All-In Sustaining Cost, and Effective Cash Tax Rate which are not measures recognized under IFRS and do not have a standardized meaning prescribed by IFRS. As a result, these measures may not be comparable to similar measures reported by other corporations. Each of these measures used are intended to provide additional information to the user and should not be considered in isolation or as a substitute for measures prepared in accordance with IFRS.

Peter Dalton, P.Geo. (Nova Scotia), Senior Geologist for Erdene and a "Qualified Person" under National Instrument 43-101, has reviewed and approved the scientific and technical information in this presentation. All currencies are reported in Canadian dollars unless otherwise specified.

## **DEVELOPING THE HIGH-GRADE KHUNDII MINERALS DISTRICT**

Investment Thesis

## First mover in an unexplored portion of a World Class Mineral Belt

• Unparalleled discovery potential for large, high-grade gold and copper deposits

## **High-grade gold development**

Bayan Khundii Gold Project moving to production in mid-2025

## **Multimillion ounce potential**

 Multiple high-grade gold discoveries adjacent to the Bayan Khundii Gold Project and significant exploration upside in district

#### **Powerful Alliance**

 Uniting Erdene and Mongolia's leading miner backed by one of the Country's largest conglomerates

## A sleeping giant

 Zuun Mod Molybdenum-Copper Porphyry Complex is one of Asia's largest undeveloped projects

#### A WINDOW OF OPPORTUNITY – LIMITED EXPLORATION IN A HIGHLY PROSPECTIVE BELT

Global distribution of giant arc related gold and copper deposits

#### **EXPANDING INFRASTRUCTURE IN A GROWING MINING JURISDICTION**

Less than 200km from the Chinese border, multiple mines in vicinity

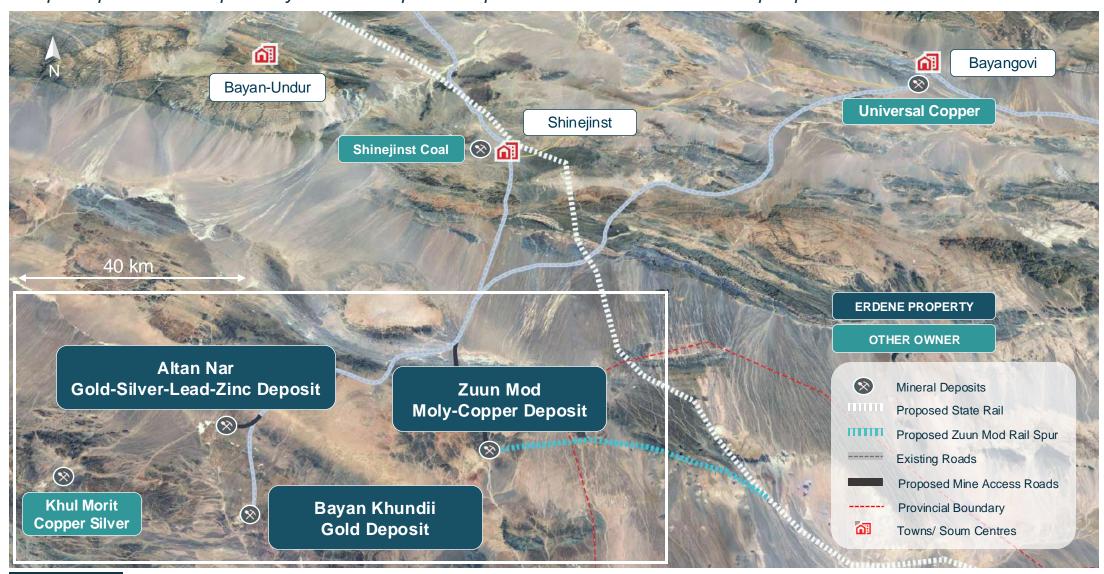

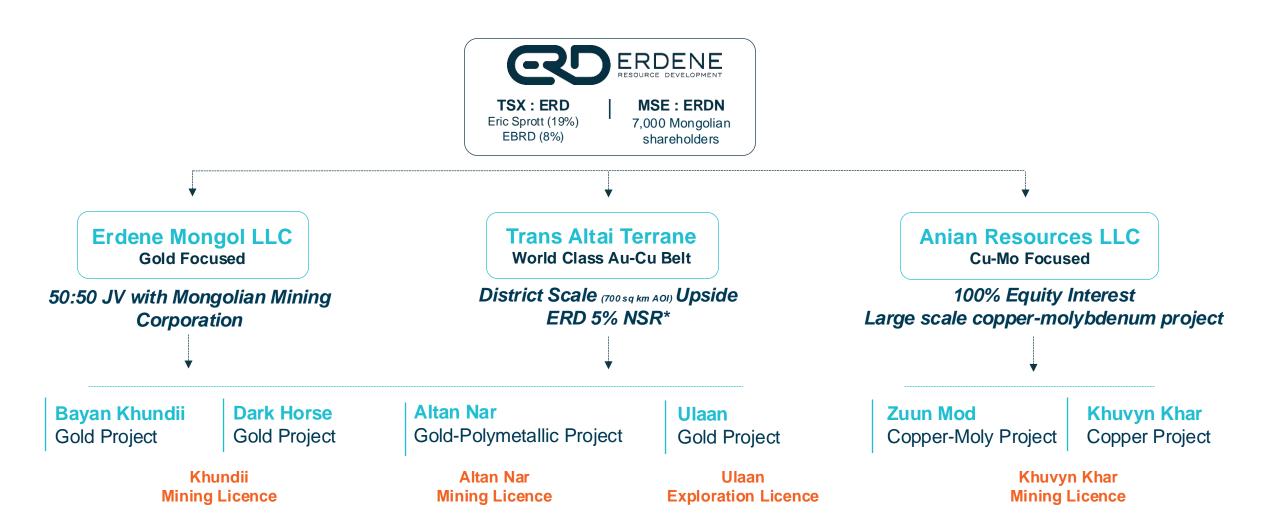

## MAKINGS OF A MULTI-MINE, MULTI-COMMODITY DISTRICT

Multiple deposits in close proximity to be developed in sequence – more than 20 additional prospects in district

#### UNITING MONGOLIA'S LEADING EXPLORER AND MINER WHILE MAINTAINING LONG TERM UPSIDE

Strategic partner with capital and operational experience

#### FINANCIAL PARTNERS

Backing of leading international and domestic institutions

- US\$40M equity investment in Erdene's subsidiary
- Forecast ~US\$500M EBITDA annually,

#### **Mongolian Mining Corporation – Loan**

- US\$80 million, 5-year shareholder loan repayable in full upon maturity
- Interest rate of 13.8%, with option to capitalize the first four interest payments
- Erdene has the right to purchase 50% of the loan and participate on the same terms as MMC

#### **Trade & Development Bank of Mongolia**

- US\$50 million, twenty-four month, working capital facility, repayable in six equal payments during the last six months
- Interest rate of 13.3%

#### **European Bank for Reconstruction and Development**

- Major shareholder (8%) following loan conversion in Q4 2020
- Largest foreign direct investor in Mongolia with €2.4 invested, including senior lender to Oyu Tolgoi

## **Eric Sprott**

#### Mongolian Stock Exchange

European Bank
for Reconstruction and Development

- Erdene's largest shareholder (19%)
- Sharing benefits with more than 7,000 Mongolian shareholders
- Erdene is first company cross-listed on both Mongolian and Toronto Stock Exchanges
- Per Fitch Ratings report

**Eric Sprott** 

## BAYAN KHUNDII DEPOSIT – RESOURCE AND RESERVES

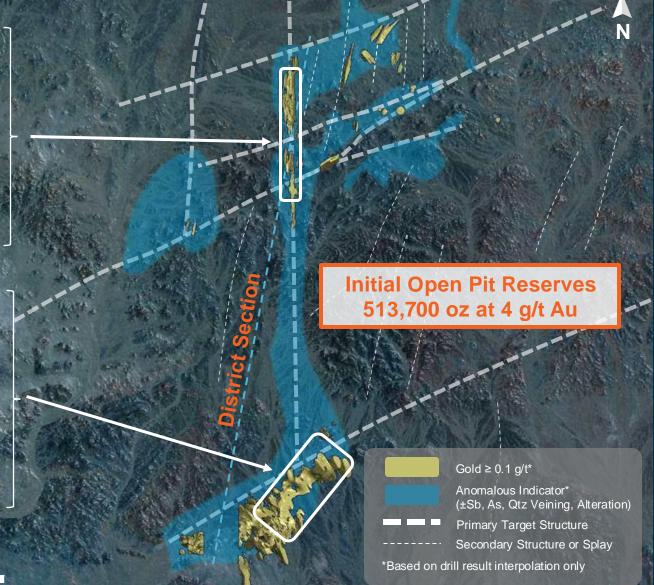

Utilizing US\$1800 gold price for reserve cut-off grades and US\$2000 gold price for Whittle Pit resource shells

MCS

## **CONSTRUCTION, POWER AND EQUIPMENT CONTRACTS**

Major construction works and logistical activities are progressing steadily

#### Engineering, Procurement & Construction contract executed with MCS Property LLC

- One of the country's largest construction firms with a 25-year history, +1,500 employees and +225 engineers
- Major contractor to the mining industry including projects for Rio Tinto's Oyu Tolgoi and MMC's Ukhaa Khudag operations
- EPC scope includes process plant (all disciplines) and the majority of critical site infrastructure

#### Power Purchase Agreement signed with MCS International LLC

- Over 30 year history in the power business, including design, construction, and operation of generation and distribution assets, 500+ employees
- MCSI will build and operate the necessary infrastructure to supply power to the project via a 110kV overhead transmission line connected to the closest substation in South Gobi province
- Transmission line is over 60% complete and on schedule to supply power to the project beginning in Q2 2025

#### All key processing equipment secured

- Major equipment vendors include CITIC (mills), Como Engineering (elution plant), Hot Chengdu (pressure filters) and Weir Minerals (cyclones, pumps)
- Mix of specialist vendors selected to optimize performance per circuit
- All major equipment now installed

Oyu Tolgoi Underground Conveyor – MCSP

18MW UHG Power Plant - MCSI

#### BAYAN KHUNDII DEPOSIT – EXPANSION ALONG STRIKE AND AT DEPTH

Current economic pit comprises only a portion of the mineralized envelopes

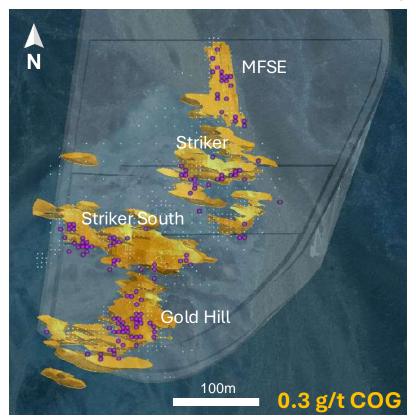

Shallow (150m max. depth), open-pit mine with six-year reserve life, significant resource expansion potential and 93% recovery using Carbon in Pulp

#### **BAYAN KHUNDII DEPOSIT**

Q4 Infill drill results

- Domains display intersection above 1,225 m elevation, averaging 15 metres from surface (at varying cut-off grades overlain by ≥20 gram\*metre gold drill collars)
- Q4 grade control program consisted of 918 holes totalling 13,441m
- 12% of holes returned intersections of ≥20 gram\*metre gold and 75% of holes contained ≥ 1m of 0.3 g/t gold

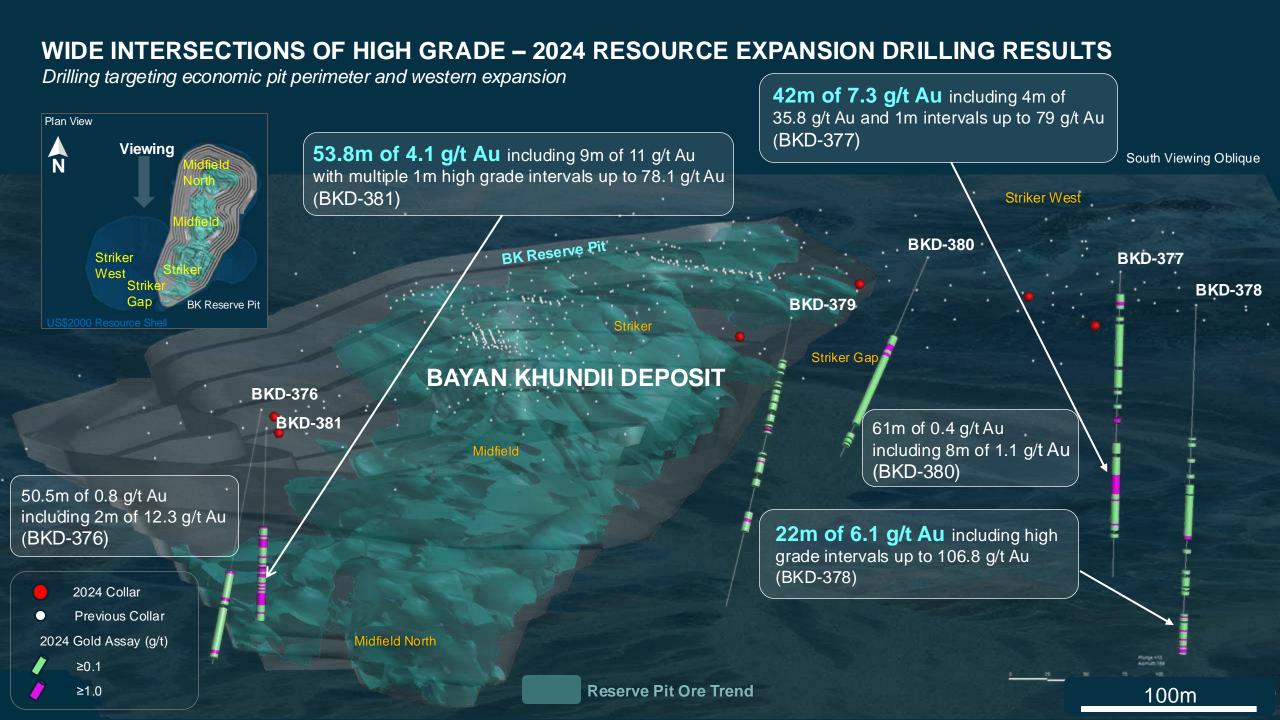

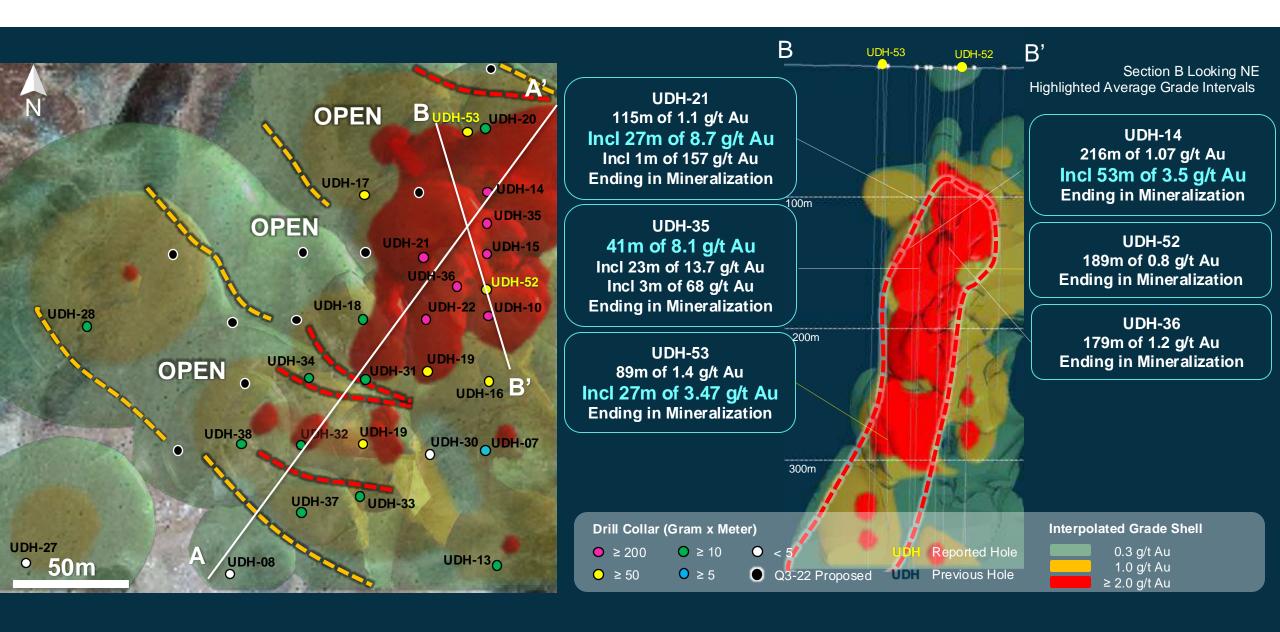

## **Q4 INFILL DRILL RESULT HIGHLIGHTS** (>100 g/t intersections)

### **EXCELLENT GRADES AT ULAAN, 500 METRES WEST OF BAYAN KHUNDII PIT**

High-grade structure traced over 300 metres deep

## DARK HORSE: GOLD ENRICHED SUPERGENE AT SURFACE - 15 METRES OF 42.8 G/T (AAD-178)

Ultra high-grade satellite deposit to be mined from year three

#### ALTAN NAR – HIGH GRADE DEPOSIT JUST 16KM NORTH OF BAYAN KHUNDII

5.6km long under-explored mineralized system

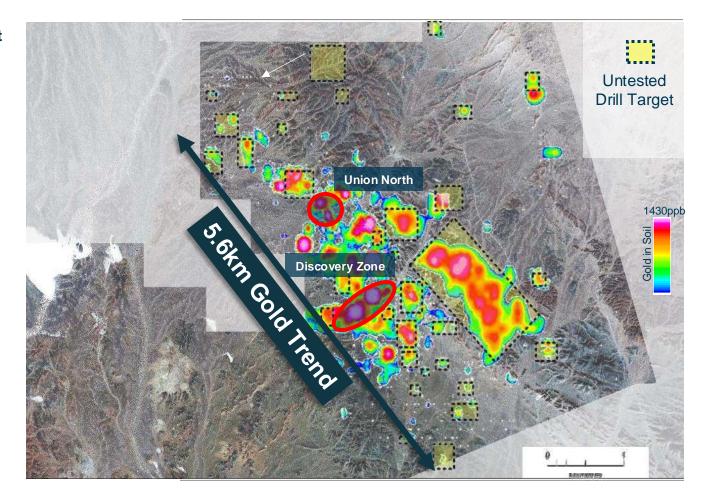

| 2019 Resource       | Category  | Au Oz<br>(1.9g/t) | Ag Oz<br>(~10g/t) | Pb lbs<br>(~0.6%) | Zn lbs<br>(~0.6%) |
|---------------------|-----------|-------------------|-------------------|-------------------|-------------------|
| Altan Nar           | Indicated | 318,000           | 2,350,000         | 63,800,000        | 69,520,000        |
| 0.7g/t AuEq cut-off | Inferred  | 186,000           | 866,000           | 49,060,000        | 52,140,000        |

# Carbonate base metal-intermediate sulfidation epithermal deposit similar to some of the world's largest:

- Fruta del Norte (Ecuador): 6.7Moz Au
- Porgera (Papua New Guinea): >25Moz Au
- Kelian (Indonesia): 5.7Moz Au
- Montana Tunnels (USA): 36Moz Ag
- Roşia Montană (Romania): 17Moz Au

# Tremendous potential to materially increase resources with minimal drilling

- Resources are focused in two zones within a 5.6km x 1.5km mineralized corridor
- +20 mineralized target areas along trend
- Extremely shallow 90% of resources are within 150 meters of surface with system open at depth

#### **ZUUN MOD – ONE OF ASIA'S LARGEST UNDEVELOPED MOLYBDENUM DEPOSITS**

Moly market set to enter deficit - prices reached all time highs within past 24 months

#### **OWNERSHIP**

- 100% owned by Erdene
- 30+ year Mining License secured

#### **LOCATION**

- 180km from China, the world's largest stainless steel producer and biggest consumer of the metal
- 30km east of the Bayan Khundii Gold Project

## MOLYBDENUM MARKET

- Molybdenum prices are elevated due to depleting supply and increased demand from renewable power on top of stainless steel
- US\$20-\$40/lb price range in the past two years, equivalent to 5-10x current copper prices – higher than Cobalt

## ZUUN MOD IS LOCATED ON THE DOORSTEP OF ONE OF THE WORLDS LARGEST STEEL PRODUCER AND MOLYBDENUM CONSUMER

In 2022, China alone ran a molybdenum deficit of 20Mlbs

Versamet Royalties Corp. holds a 1.5% net smelter return royalty on the Zuun Mod License, subject to a buy-down provision. NI 43-101 Technical Report, Zuun Mod Porphyry Molybdenum-Copper Project, Minarco-MineConsult, June 2011

#### ZUUN MOD -PORPHYRY MOLYBDENUM, COPPER, SILVER SYSTEM, 16KM IN CIRCUMFERENCE

35 km west of Bayan Khundii – Open at depth with multiple prospects within and outside of current mineralized envelope

#### POISED FOR GROWTH

Cashflow from the Bayan Khundii Gold Project will unlock the value of the Khundii Minerals District

#### **COMMITTED TO MONGOLIA**

Our home for 25 years

- We have been supporting our host communities for +10 years before the construction decision
- We have invested ~US\$100M in Mongolia since inception
- The Bayan Khundii Gold Project is forecasted to contribute ~\$250M in direct taxes & royalties to the Mongolian Government over 6 years and support 500 direct jobs¹
- Longstanding, deep relationships at all levels of government and well respected within the Mongolian business community
- Peter Akerley awarded the Order of the Polar Star (highest civilian award Mongolia presents to foreign citizens)
- Erdene is the first cross listed company on the Mongolian and Toronto Stock Exchanges
- 70% of the executive team reside in Mongolia and we have ~7,000 Mongolian shareholders
